GENERAL:

1. Fixture must be installed by licensed electrician.
2. All electrical connections must be in accordance with local codes, ordinances, or the National Electrical Code
3. Before starting the installation, make sure all electricity has been turned off and electrical breaker has been locked out and tagged out.
4. To ensure the success of the installation, be sure to read these instructions and review the diagrams thoroughly before beginning.

NOTE: The important safeguards and instructions appearing in this manual are not meant to cover all possible conditions and situations that may occur.

INSTALLATION INSTRUCTIONS:

- 1) Make the wiring connections at the J-Box. Then remove the Mounting Bracket from the back of the cylinder by unscrewing the slotted Set Screws.
- 2) Use J-Box Mounting Screws to fasten the Mounting Bracket to the J-Box on the intended surface.
- 3) Reattach the cylinder to the mounting plate using (2) top and (1) bottom Set Screws. Tighten them evenly to ensure fixture is level.
- 4) Restore power to circuit then test fixture.

NOTE: LED lamping is integral and NOT intended for general servicing.
